

**(EC) No 1907/2006 (REACH)
2011/65/EU (RoHS II)**

We hereby certify that all of our products comply fully with the requirements of Regulation (EC) No 1907/2006 (REACH) and Directive 2011/65/EU (RoHS II).

The products distributed by Schaeffer AG are products as covered by European chemicals legislation. With regard to the relevant requirements set out in the above regulations we hereby notify you of the following:

Schaeffer AG products, according to the present state of knowledge and in compliance with the decision of the European Court of Justice of 10.09.2015 (“O5A - once an article always an article”), do not contain any of the substances on the candidate list (SVHC - “substances of very high concern”) in accordance with Article 59(1) of Regulation (EC) No 1907/2006 (“REACH”) in concentrations exceeding 0.1% by weight. There are therefore no obligations to provide information as laid down in Article 33 REACH.

According to current information, Schaeffer AG products do not contain any of the substances prohibited by the RoHS II Directive (RL 2011/65/EU) exceeding the limits given in Annex II of the Directive. This includes the changes to Annex II introduced by Directive 2015/863/EU.

We furthermore confirm that we will continue to follow the development of the legal requirements and the discussions about hazardous substances of particular concern in products, in order to detect newly identified candidate substances in our products at an early stage.

Regular quality checks, consultation of related experts as well as an intensive dialog with our suppliers are integral elements of our quality control system. In this way we not only ensure that our products comply with relevant legal regulations, but rather go beyond this to also promote environmentally friendly production processes.
